MEMORANDUM TO:

SUBJECT : Camera Switch

25X1

25X1

This is to confirm our conversation of yesterday concerning the cockpit control switch for the A-1 cameras. In my opinion, it is operationally unacceptable to have both the Tri-met and the Swing 24-inch controlled by a single switch. Arrangements must be made whereby the pilot can select the operation of either or both the Tri-met and 24-inch camera.

*My con called by SDR. Told
to look into this on 3/5/56. He will
look into this & send back to
us, via who is waiting
for con, what the feasibility is
doing the same.*
